CREATIVITY ZONE BY AMBASSADORS & TUTORIALS

Nail art is super simple and is the perfect choice for someone who is just starting out. Make sure you're starting with a clean slate by removing any old polish on your nails. Trim and file your nails. Since you're creating nail art, try not to trim them too short.

Apply base coat, shape gel and polish of your choice. Then the glitter effect for shiny effect. Allow the design to dry completely and finish it off with clear top coat. Paint a clear top coat over the nail to keep the sticker or jewel from falling off. Simple !!
